

ENVIRONMENTAL POLICY

This policy outlines Fallow Management's commitment in striving for environmental sustainability in all our business activities. We seek to achieve this by embracing the framework laid down by ISO 14001, and all relevant environmental legislation.

We recognise the social and ethical importance of environmental best practice, and we will strive to achieve continual improvement in identifying our environmental aspects and minimizing any adverse impacts which may arise from them. The company sets objectives and targets linked to our aspect assessment.

We will regularly review our purchasing practices, supplier criteria and internal operations particularly chemicals used, transport and energy to ensure best use of resources.

We aim to reduce the creation of waste by improving operating practices and by the recycling of materials whenever practical.

We will ensure all waste is stored, transported, and disposed of in a safe and responsible manner.

This policy is issued to all our customers, is available to all our employees, and is on our website for general access. Additional copies of this policy can be requested.

Fallow Management Ltd are totally committed to this policy and will provide all necessary resource, education, and training for all our employees in the operation of our Environmental Management System.

We will always offer best practice advice to customers and suppliers where there is a need.

We believe that by following our Environmental Management System we can help to secure a sustainable future today for generations of the future.
